TeamTeach

95% of the Team Teach training and the Team Teach courses is not about physical intervention at all, it's all about those de-escalation techniques. If there were other schools considering investing in Team Teach trainers, I would be telling them not to hesitate because it allows their staff to be competent and confident to positively manage behaviour within their school."

Kieron Scott, Designated Safeguarding Lead and Academy Director, Paignton Academy

Team Teach is a tried and trusted package which we have used for many years in our SEMH setting. It encompasses everything our pupils need; from low level de-escalation in the classroom, up to diffusing high levels of aggression using techniques that are well thought out. The course deliverers understand the behaviours we deal with and are able to speak from first-hand experience, which only adds to the integrity of the course content.
